### KEY BENEFITS

- new formulation and technology
- lighter
- eliminates use of absorption pad
- reduced stock lines
- 100% better absorption
- more cost effective

Absorption foam trays are designed to absorb liquids, typically blood, and draw liquid away from the surface of the tray. This blood is trapped within the tray, improves appearance of the product and prevents spillage during handling. For further technical information please contact your distributor or Versapak sales manager.

AVAILABLE IN BLACK & WHITE
